The Curious Club Collection

The Curious Club by Bethany Linz is a spirited collection of wallpapers created for rooms filled with imagination. Playful, decorative and rich with movement, the collection brings together garden florals, club stripes, underwater worlds, coral reefs and sky-bound adventures in Bethany's unmistakably charming style.

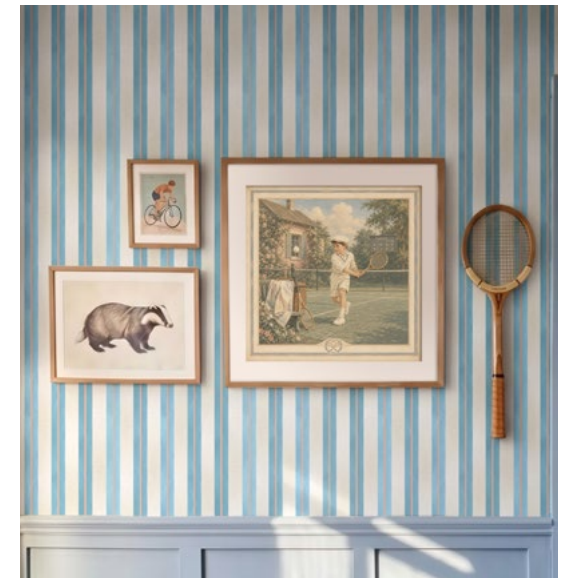

Each design feels like a page from a beautifully illustrated childhood, reimagined for interiors through expressive pattern, balanced scale and an inviting colour palette. The collection feels equally at home in nurseries, playrooms, guest bedrooms and relaxed family spaces.

Rather than leaning into overtly themed children's decor, The Curious Club celebrates the enduring spirit of childhood: curiosity, make-believe, collecting, games, nature and discovery. Painterly florals sit beside sporting stripes, sea creatures drift through coastal hues and coral reefs bloom beneath the surface. Elsewhere, planes and sky motifs bring a sense of freedom and adventure.

The palette balances optimism with refinement. Soft celadons, jade greens, powder blues, warm oat neutrals and shell pinks are grounded by deeper tones of navy, olive and umber, creating a collection that feels playful without becoming overly bright or primary.

The Curious Club is a collection for children's spaces, but also for anyone drawn to charm, pattern and a sense of everyday wonder. It invites you into a world where childhood is not a theme, but a feeling: imaginative, colourful and full of delight.
